## CONDITIONS OF SALE

### Bidding

1. The placing of a bid will constitute acceptance of the conditions of sale.
2. All bids are per lot as numbered in the catalog. The right is reserved to withdraw any lot or lots and to group two or more lots.
3. Lots are sold to the highest bidder at one advance over the second highest bid. The auctioneer shall regulate the bidding and in the event of any dispute the auctioneer's decision shall be final.
4. The auctioneer shall not be liable for errors and omissions in executing instructions to bid.
5. Unlimited bids and bids believed not to be made in good faith will be respectfully declined.
6. Minimum bid on any lot is \$50.00.
7. All lots will be sold at the price for which they are knocked down by the auctioneer, plus a commission of 15%.

### Payment of Purchases

8. Successful bidders will be notified of lots purchased and must remit before lots are delivered. Persons who are known to us may, at our option, have purchases forwarded for immediate payment.
9. Terms are immediate payment in U.S. funds on receipt of the invoice. Payment by credit card will be subject to a 2% service charge.
10. The mode of shipment shall be at our option unless we are given specific instructions. A minimum charge of \$1.50 will be made in addition to postage, insurance, and handling.
11. Successful bidders agree to pay for lots as specified above and no credit is extended. For overdue accounts a late charge of 2% per month (minimum \$30.00) will be charged. Accounts are considered overdue after (30) days.

### Quality

12. Any lot, the description of which is incorrect, is returnable within ten (10) days of receipt and must be received within four weeks from the date of the auction. All disputed lots must be returned intact in the condition received. The following lots may not be returned without prior approval: lots containing ten or more stamps; lots from buyers who have had the opportunity to examine them before the sale; lots described as having defects or faults may not be returned because of faults. No illustrated lot may be returned because of centering, margins, or other factors shown in the illustrations.

### Authenticity

13. All lots are sold as genuine, but should any lot be proved otherwise by written opinion of any responsible authority acceptable to us, immediate refund of the full purchase price will be made, provided we are notified in writing within 14 days from date of sale that an opinion is being sought. If claim is not made within this period, no lots are returnable for any reason at any time. We will not be responsible for any charges incurred by the buyer for expertization fees and costs unless the opinion states the item is not genuine, in which case we will pay actual costs up to a maximum of \$100.00. In the event an item is proved "not as described" it is returnable for a full refund. Any lot which has a certificate dated within the last five years is sold in accordance with the certificate and is not returnable for any reason including an opinion obtained in a new certificate after the sale.

#### U.S. COINS

##### Half Cents

589	1804 Plain 4; Stemless Cohen-13 XF perhaps better. Light brown in color struck from a fairly worn die w/ visible stress around the obv and rev peripheries. Overall, a very attractive coin with a lot of fine detail.	EST P 260-350 HWC-SE
590	1855 XF+ perhaps better. Lovely even brown original. Small rev rim bump @ K3 does not significantly detract from the appeal of this coin.	EST 85-110 SE

##### Indian Cents

591	1872 Fine perhaps better. A light corrosion spot near the obv rim at K7-8 but does not seriously impair the appearance. A nice coin for one of the keys to the series.	EST 160-200 SE
592	1877 G+ original no problems other than honest wear. Lovely coin!	EST P 350-425 HWC-SE
593	1908-S AU+ detail but cleaned to a bright orange. Still acceptable.	EST 75-90 SE
594	1909-S Indian Cent AU+ details cleaned. The coins has a bright orange color but nice detail. Mintage only 309,000 and quite scarcer than the 1909-S VDB Lincoln Cent.	EST P 300-400 HWC-SE
595	(55) 1857 // 1909 in Whit folder 9003 classic low- to mid-grade set missing only 64-L, 77, & 09-S. Most grade AG to VF w/ a few problem coins here and there but some decent pieces in the scarce years 1866 // 1878. 08-S is nice F. Inspect!	EST 170-220 SE

##### Lincoln Cents

596	1909-S Lincoln XF nice detail on an even-colored woodgrain planchet. A 4mm rev planchet lamination on the right wheat stalk is the only issue but overall ok.	EST 70-85 SE
597	1922 No D Fine. This is the "weak reverse" variety often referred to as Die Pair 1. The classic 1922 No D is Die Pair 2 with the strong reverse, but the Coin Dealer Newsletter now lists this weak reverse variety at \$250. In Fine. Nice even brown and attractive.	EST P 200-240 SE
598	1922-D MS60 Red-Brown. Color may not be original but still good detail for this notoriously poorly-struck issue. Rev shows 25-degree die rotation.	EST 70-85 SE
599	(153) Classic low- to mid-grade set 1909 // 1965 in Whit folder & album (9004) missing only 09-S VDB & 14-D. Earlies mostly G to F (09-S VF, 22-D VF, 24-D F & 31-S VF) w/ later somewhat better. Overall a sound group.	EST 160-200 LE
600	(280) Diff 1909 // 2006-S in a Whit 9112 album. A virtually complete set missing only the 09-S VDB, 14-D, 22-Plain, & overdates. The coins in this set are technically high-grade (XF/AU or better) but most of the earlies (pre-1935) have been dipped to simulate the natural orange color of BUs. However, the color uniformity makes for a rather attractive display. Many of the coins show outstanding details. The later are mostly natural red uncs and the set is generally very appealing. Take a look at this lot to see for yourself!	EST 1,600-2,000 HWC-B

646	1889-CC XF45 comes w/ the PCGS label indicating this grade from the plastic slab that supposedly once held this coin. The appearance is original but there are a few rev scratches in the left wing and field left of the eagle. These scratches may have occurred when the coin was removed its holder. However, they are only plainly evident upon magnification. The 89-CC is a rare coin in high grade.	EST P 1,600-2,000 HWC-SE

656	1893-O VG nice original.	EST 110-135 SE
657	1893-S VF+ perhaps better. Lightly hairlined from an earlier cleaning, the coin is light grey and still maintains an original appearance. The diagnostic die scratch on the T in LIBERTY is plainly evident guaranteeing its authenticity. The 1893-S is a scarce coin in any grade - prohibitively so in AU or higher. The undisputed king of the Morgan \$1 series, the original mintage was only 100,000 the overwhelming majority of which entered circulation as silver dollars were used in daily commerce on the west coast during the time of this coin's striking. In the late-1950's a roll of 93-S's were found in an uncirculated bag of 1894-S's and these 20 coins account for the majority of the uncirculated specimens known today. (Unc pieces easily bring \$125k and up.) This offering presents a rare opportunity for the Morgan silver dollar specialist to acquire the series key in nice mid-grade condition. A must-see!	EST P 4,200-5,000 HWC-SE
658	1894 nice AU showing ample high point detail but dipped to pure white w/ residual hairlines evident mostly on the rev. The 94-P is one of the keys to the Morgan series. Its low mintage (110,000) is due mostly to the repeal of the Sherman Silver Purchase Act of 1890. Grover Cleveland, elected President in 1892, was no friend of the Sherman Act and had repealed soon after he took office in 1893. The subsequent reduction in the money supply resulted in economic recession in 1894-95, which allowed the opposing party (those favoring free coinage of silver) to prevail on many political issues of the day. Though the Sherman Act remained repealed, coinage of silver dollars in large quantities began again in 1896 in conjunction with the resumption of Silver Certificates as paper money.	EST P 650-800 HWC-SE
659	1895-O NGC AU Details Cleaned, Rim Damage. The flaws have to be mentioned, but the coins is much more attractive that its description. The obv rim had been filed all the way around the coin but does not significantly detract from its appearance. The cleaning is evident but the coin still looks fairly original.	EST P 600-750 HWC-SE

LOT	U.S. COINS		VALUE	
660	1895-S VF+ by wear perhaps better. A scarce issue usually found in very low grade. However, this coin has been cleaned with residual hairlines evident on both sides. Given the ample detail it may still represent a good opportunity for the right collection.	EST P	375-500	HWC-SE
661	1899 MS60+ a few marks but still a nice example of this scarce issue. Rev is lightly toned and semi-prooflike. It was once believed that the 1899-P mintage of 330,000 was an error and that the actual mintage was much higher. But experience has proven this issue is genuinely scarce relative to the common dates in the series. Even circulated example are seldom encountered compared to the dates that are common. Take advantage of the opportunity this offering presents.	EST P	200-240	HWC-SE
662	1903-O MS60+ white. A very nice coin that has been carelessly wiped leaving very light obv hairlines visible w/ magnification. Still an attractive coin and a great example of this scarce issue. Once the rarest Morgan of all priced at about \$1,500 in the early 60's, bags were discovered during the great Treasury release of silver dollars in 1962-64. Almost overnight, the price of the 1903-O plummeted to that of the common dates. Today, we recognize this date as being a bit better, but high-grade examples can be located without significant effort. When located, the 1903-O is usually found well-struck and attractive, adding to its overall appeal.	EST P	300-350	HWC-SE
663	1903-S VF or very nearly so. No doubt this coin was dipped at one time but it is still acceptable. Who ever said that the silver dollar was an unpopular coin that did not circulate as a medium of exchange? This date is notorious for being particularly scarce above XF and prohibitively rare uncirculated leading to the conclusion that most of the mintage (1.2 million) of this issue went into circulation almost immediately in the San Francisco area and other locations in the far western part of the country. The typical 1903-S encountered is very well-worn, much more so than the present example. The total mintage of silver dollars certainly exceeded the number needed, but it is clear from the wear on so many of these coins that they were clearly useful in the channels of commerce especially in the south and west. 695	1804 Small 8 PCGS Genuine Unc Details Cleaned. A beautiful coin to look at with great luster and a very full strike. The cleaning has left a myriad of hairlines on the obv but they are not particularly distracting especially given the scarcity of gold coins of this era which are rare w/o some significant problem. From an original mintage of 30,475 very few remain. PCGS has allegedly graded 395 to date but this number is surely inflated by re-submissions which for early gold is probably over 50%. 700	1907 Indian No Motto AU lightly polished w/ some residual hairlines. Interesting first-year type coin. The "No Motto" design, struck exclusively in 1907 and part of 1908, was executed in accordance with President Theodore Roosevelt's preference that the deity's name not be used on US coinage. However, it would eventually be added early in 1908. The "No Motto" coins display rather weak design details especially in 1907. This is normal and should not be confused with wear. ## NOTES

(1) Minor separations in multiples and sheets are to be expected in older issues; a few open parts do not adversely affect value and do not constitute reason for return.

(2) Gum line and lt. gum creases are normal characteristics of U.S. flat plate issues; these will be described only when unusually pronounced.
